Model 3800 - DC Motor Residential Jackshaft Opener

Today's garages go far beyond a place to merely park your vehicle. They have evolved into a place for working on projects, fixing the car or kicking back with friends. For this type of space and for this type of homeowner, we offer the **Jackshaft Garage Door Opener - Model 3800**

The Model 3800 offers an ultra-quiet, space-saving, wall-mounted design. It's specially designed for garages and unique applications that don't allow for a traditional garage door opener, such as garages with very low, cathedral or obstructed ceilings.

- Ultra-quiet 24V DC motor performance
- Optional EverCharge™ battery backup system reliably opens door even when the power goes out
- For sectional doors only, up to 14 feet high or 180 square feet
- Meets all UL325 requirements
